### AREA ATTRACTIONS

---

Located in the impressive Banderas Bay, surrounded by a jungle landscape and framed by the majestic Sierra Madre mountains, Nuevo Vallarta seduces visitors from all over the world.

Explore neighboring Puerto Vallarta, a popular vacation destination where the past and present merge. It seems as if time stops while one walks along the cobblestone streets observing the picturesque houses. On the path towards the Malecon strip you can find genuine silver and handicrafts.

In addition, the Bay offers endless opportunities for deep-sea diving, snorkeling, swimming with dolphins and fishing. Boat rentals are also available for private use.

Walk on the soft sand of Playa de los Muertos and Playa del Sol shores. Movie fans will recognize the famous Mismaloya beach as the place where The Night of the Iguana was filmed.

Nature presents its own show from December through March when the humpback and gray whales make their journey to these warm waters for delivering their young. The bird sanctuary in the Marietas Islands is also famous where divers are seen with the awesome hidden beauty in the deep crystalline waters. That is why Jacques Cousteau described it as a wonderful natural reserve.

The Grand Mayan's concierge will gladly assist you with your reservations for your tourism desires.
